

### OQ Chemicals Updates Fuel Surcharges in North America

**Houston, USA, Mar. 14, 2022** – OQ Chemicals is announcing an update to its freight surcharges to be applied Apr. 1, 2022, to all North American (US/CA/MX) orders where the seller absorbs the freight. This is to help offset some of the rapidly increasing logistic and trucking costs resulting from both market tightness and fuel increases. Customers with any questions are advised to contact their OQ Chemicals account manager.

<b>Fuel surcharges effective Apr. 1, 2022</b>	<b>Per pound</b>	<b>Per kg</b>
Trucks (Including any container or chassis delivery)	\$0.02	\$0.044
Rail	\$0.01	\$0.022

#### **About OQ Chemicals**

OQ Chemicals (formerly Oxea) is a global manufacturer of oxo intermediates and oxo performance chemicals such as alcohols, polyols, carboxylic acids, specialty esters, and amines. These are used to produce high-quality coatings, lubricants, cosmetic and pharmaceutical products, flavors and fragrances, printing inks, and plastics. OQ Chemicals employs more than 1,400 people worldwide and is part of OQ, an integrated energy company originating in Oman. OQ Chemicals sells its chemicals in more than 60 countries worldwide. More information is available at [chemicals.oq.com](http://chemicals.oq.com).
